## WHAT IS A SUBSCRIPTION?

In a few words, we'll try to explain it. We have created an innovative subscription system for our own, t-shirt board games. It includes online cards, tools and game templates.

To use this system you need SUBSCRIPTION, which is an additional element of our board games. Of course you can play without it, but it is an important complement to our games. The subscription is available for INDIVIDUAL PLAYERS and for BUSINESS PARTNERS, you can find more about it on our website in dedicated offers.

### **A subscription is something much more!**

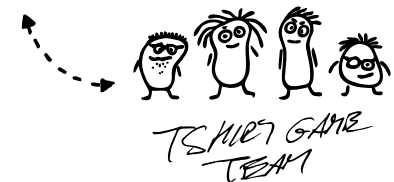

You get access to thousands of cards to play in one place with the ability to create your own sets. Interesting tools and accessories for board games. From time to time, you will receive special activation codes from us for new card sets. Everything is based on strengthening your creativity and awakening your imagination.

The subscription gives you access to the system 24 hours a day (24/7). A powerful asset of this system is its bilingualism. All materials are prepared in Polish and English, which makes it quite an interesting language tool. Due to cultural and linguistic differences, some materials are only available in one language.

All materials are designed with the players in our mind, in a way that they generate a lot of positive emotions and experiences during each game.

We invite you to take advantage of the offer.

It develops creativity and speed of thinking equally well. Helpful in learning, it works perfectly on the go. We encourage you to use in your spare time. The creator can be used in several different ways. You create short words from the letters displayed. You make a logical statement, arranging the phrases from the first letters drawn.

**WORD CREATOR** - Also, this tool can be useful while traveling. It is the WORDS CREATOR, which allows you to display from 1 to 8 randomly selected words from our database. There are several ways to use this simple tool in the form of simple and fast games. Your task is to fill all board cells with numbers from 1 to 9 (mini version from 1 to 4). In each row and each column, a given number can only appear once, numbers can not be repeated. Unlimited creation of thousands of Sudoku versions, which is created in PDF format and fits on an A4 sheet, so it's easy to print it on your home printer.

**GUESS WORDS** - A very cool and simple tool for guessing hidden words. It is automatically generated and saved on your computer in PDF format. You only need to choose the right level of difficulty: easy, medium, difficult, expert or mix. On one card you will find 4 words or slogans to guess. There you will also find short descriptions representing the hint. Great fun guaranteed.

**FUTOSHIKI CREATOR** - Our innovative tool for creating a great, Japanese numerical Futoshiki puzzle. The game is similar to Sudoku, in which you must arrange the numbers in each row in such a way that they do not repeat themselves. In our edition, the game is available in easy, medium and difficult versions in a combination of 4x4, 5x5 and 7x7 boards. We recommend using this tool daily to help and strengthen your memory.
