GAME BENEFITS

Board game TOOLS has 2 variants of the game. The first uses our digital tools. You need internet access for the first version. The second alternative without using digital tools when you're offline.

At the beginning, we recommend using dedicated card sets. They can change the course of the entire game. You play on time and earn points. Whoever gets the most points will win. Super fun for everyone.

The game begins traditionally from the dice roll. Each player moves his / her player to the indicated number of points in a specific direction. Intermittent markers between fields inform you in which direction you are moving. There are also specific symbols on the board. Each of them has a different meaning, which we write about in the further part of the manual. Whoever first reaches the finish line marked with the end marker of the game is the winner.

NOTE: With purchase of a board game in our store, you will find book versions of playing cards, in the box. This is our INNOVATIVE METHOD, an alternative to traditional playing cards. There you will find a dedicated set of 72 cards. In addition, another 144 playing cards in the book version as BONUS. Therefore, you have 216 cards ready to start the game.
